

LASITHA E

Product Manager · Ex-SDE & Project Manager · Consumer & Growth

 lasitha.me  +91 9048480669  lasithaeaswaran@gmail.com  [lasithae](#)  [LasithaE](#)

Profile

Product Manager with a background in technology and product development. 4+ years of experience working in early-stage startups and fast-paced environments - close to founders, first iterations, data-informed roadmaps, and rapid execution.

Skills

Product: Roadmapping, PRDs, Wireframing, User Research, Metrics (NSM/OKRs), Experimentation, Instrumentation, Go-to-Market

Technical: React, Kotlin, Python, Django, GraphQL, SQL, PostgreSQL, Next.js

Tools: Jira, Notion, Figma, Amplitude, Mixpanel, Tableau, CleverTap

Experience

HomeRun

Jan 2026 – Jun 2026

Associate Product Manager

Bengaluru, India

- **In-App Marketing & Instrumentation:** Initiated event tracking infrastructure from the ground up and scaled in-app marketing; drove a **60% increase in new user acquisition** within 45 days.
- **AI-Powered Tooling:** Leveraged AI to build internal automations and config tools to replace manual operational workflows - including cross-system price updates, a WhatsApp automation for split-fulfilment order tracking (reduced order-status CX queries by 68%), and stakeholder dashboards surfacing product performance insights across AOV, customer cohorts, and lifecycle stages.
- **Bulk Pricing:** Designed and launched HomeRun's first tiered pricing system across 23 hero SKUs; owned GTM across WhatsApp, Instagram, and email campaigns targeting existing bulk buyers - drove a **6.8% increase in average quantity ordered** within 30 days.
- **Search Optimisation:** Initiated and led evaluation of 8-9 third party search vendors; analysed capabilities, negotiated terms, and finalised the right solution for the current stage; released v0 in 2 weeks, improving **search conversion by 16%**.
- **Address Book:** Identified the gap in single last-used-address logic and drove introduction of address book; reduced **address-related CX queries by 15%** and improved **repeat order retention by 10%** among B2B users ordering for multiple locations.
- **Platform Stability:** Defined and prioritised the product roadmap using data analysis to identify the highest-impact issues; led resolution of **18 business-critical bugs** across app and web by coordinating three dev teams, clearing the backlog in 1 month and improving **checkout conversion by 10%**.

Inheaden

Aug 2023 – Dec 2025

Project Manager & Frontend Developer

Bengaluru, India

- Led the team to build a Shopify-Airtable booking and ticketing system for an events and family entertainment platform; owned full scoping, stakeholder alignment, and delivery end-to-end, shipping in 6 months.
- Built an internal knowledge management platform for a government client, enabling staff to create a multimedia knowledge base and query it through an AI chat interface.

Lummo

Aug 2022 – Mar 2023

Software Development Engineer - L1

Remote

- Built Instagram and Shopee order-channel integrations for LummoChat; merchants using these channels saw a **~35% increase in total orders** compared to pre-LummoChat baseline.
- Built a rich text editor for the chat experience, contributing to an **18% increase in customer response rates**.
- Introduced ReCAPTCHA verification before WhatsApp redirect during merchant onboarding, blocking bot-driven message costs - cut spam interactions by **63%**.
