

LASITHA E

Product Manager · Ex-SDE & Project Manager · Consumer & Growth

🏠 lassitha.me 📞 +91 9048480669 ✉ lasithaeaswaran@gmail.com 🌐 [lasithae](#) 🎧 [LasithaE](#)

Profile

Product Manager with a background in software development and project delivery. 4+ years across early-stage startups — close to founders, zero-to-one builds, and data-informed roadmaps. Led end-to-end across growth, retention, and platform initiatives with a strong bias toward measurable outcomes.

Skills

Product: Roadmapping, PRDs, Wireframing, User Research, Metrics (NSM/OKRs), Experimentation, Instrumentation, Go-to-Market, A/B Testing, Stakeholder Management

Technical: React, Kotlin, Python, Django, GraphQL, SQL, PostgreSQL, Next.js, LLM/RAG Prototyping

Tools: Jira, Notion, Figma, Amplitude, Mixpanel, Tableau, CleverTap, REST APIs, Postman

Projects

Goal-Based SIP Retention Tracker: SEBI-compliant feature concept that re-anchors users to their original investment goal to reduce SIP drop-off.

Inbox Swipe: Swipe-based triage UI that lets users clear and organise their Gmail inbox in minutes.

Order Support Voice Agent: Real-time voice agent bound to a specific order, supports Hindi, Kannada, and Tamil, and can actually process a return or refund.

Voice Benchmark: Internal eval tool comparing Sarvam and Gnani across Hindi, Kannada, and Tamil on latency and pitch variation.

Experience

HomeRun

Jan 2026 – Jun 2026

Associate Product Manager

Bengaluru, India

- In-App Marketing & Instrumentation:** Identified zero tracking infrastructure on day one; scoped, prioritised, and drove implementation of event tracking from the ground up, scaling in-app marketing to deliver a **60% increase in new user acquisition** within 45 days.
- AI-Powered Tooling:** Defined the automation roadmap across pricing, order tracking, and reporting; shipped a WhatsApp automation for split-fulfilment order tracking that **cut CX query volume by 68%**, and built performance dashboards for AOV, cohort, and lifecycle insights.
- Bulk Pricing:** Owned strategy and GTM for HomeRun's first tiered pricing system across 23 SKUs, drove a **6.8% increase in average order quantity** across WhatsApp, Instagram, and email channels.
- Address Book:** Surfaced repeat-order friction through CX data analysis; drove the introduction of a multi-location address book, reduced **address-related CX queries by 15%** and improved **repeat order retention by 10%** among B2B users.
- Search Optimisation:** Led evaluation of 8–9 third-party search vendors; set criteria, managed negotiations, and finalised the right fit for the current product stage, shipped v0 in 2 weeks, improving **search conversion by 16%**.
- Platform Stability:** Audited the bug backlog, prioritised by revenue impact, and coordinated resolution of **18 business-critical bugs** across app and web with three dev teams, cleared the backlog in 1 month and lifted **checkout conversion by 10%**.

Inheaden

Aug 2023 – Dec 2025

Project Manager & Frontend Developer

Bengaluru, India

- Led scoping, stakeholder alignment, and end-to-end delivery of a Shopify-Airtable booking and ticketing system for a family entertainment platform, processing **1,000 tickets/day (30K/month)**, shipped in 6 months.
- Defined the architecture and led delivery of an internal knowledge management platform for a government client, indexing **~200K documents** into a multimedia knowledge base queryable through an AI chat interface.

Lummo

Aug 2022 – Mar 2023

Software Development Engineer - L1

Remote

- Built Instagram and Shopee order-channel integrations for LummoChat; merchants using these channels saw a **35% increase in total orders** compared to pre-LummoChat baseline.
- Built a rich text editor for the chat experience, contributing to an **18% increase in customer response rates**.
- Introduced ReCAPTCHA before WhatsApp redirect during onboarding, blocking bot-driven message costs and cutting spam interactions by **63%**.

Education
